

## Earning an Income Review

1. At your new job you will work 37.5 hours per week and you will be paid \$14.25/hour. What is your gross pay?

2. Sara worked the following hours last week:

M	T	W	T	F	S	S
8	9	7	9	8	3	0

The regular work week is 40 hours and she is paid *weekly* overtime. She is paid \$8.75/hour and she receives time and a half for overtime. Calculate her gross pay for the week.

3. Convert the following to hours:

a) 2 hours 15 minutes

b) 5 hours 24 minutes

4. Calculate the total time worked each day.

a) 9:05 – 12:10

b) 8:54 – 12:01

c) 8:50 – 1:20

5. For Jason, a regular work day is 8-hours. His regular rate is \$9.20/hour and he is paid time and a half for *daily* overtime and double time on Saturday. Find his gross pay if he worked the following hours: Mon. 9; Tues. 10; Wed. 8; Thurs. 9; Fri. 9; Sat 4

6. If your old salary is \$255/week and you receive a 10% increase, what is your raise and what is your new salary?

7. If your old salary was \$350/week and you receive a raise of \$35/week, what is your percent rate of increase?

8. Lisa is paid \$543/month. Calculate her net pay after all deductions. She is a claim code 1.

9. Paul works a 40 hour week and receives \$8.00/hour with time and a half for overtime. Last week he worked 52 hours. He has a union due deduction of \$6.80 and a dental plan deduction of \$2.75. If his claim code is 2 and is paid weekly, determine his net pay.

10. Calculate the commission earned on \$20,000 if the commission rate is 3%.

11. Vanilla Bean Incorporated pays \$ 5 for every completed bag of 100 beans picked at the end of the week. Calculate Shannon's gross pay for the week given the following amounts

<i>Day</i>	<i>Amounts</i>
Monday	6250
Tuesday	8125
Wednesday	5670
Thursday	7823
Friday	7491

12. Captain Louie is paid a salary of \$250/week and receives 2 ½% commission on all the boat supplies he sells. Calculate his weekly gross pay is he sells \$250 250 worth of boat supplies.

13. Hien is a painter. He negotiates a contract where he is paid \$35/hour plus the cost of materials. It takes Hein four 8-hour days to paint the house and he uses 10 gallons of paint that cost \$43 each and 2 gallons of primer that cost \$35 each. What is the total value of the contract?
